

PRITAM MANDAL

Software Engineer | Java Backend Developer
| Full-Stack Developer

Howrah, West Bengal

9635105281

pritammandal452003@gmail.com

PROFESSIONAL SUMMARY:

Motivated Software Engineer and Java Backend Developer with hands-on experience in designing, building, and deploying backend and full-stack applications using Java, Spring Boot, Spring Security, Hibernate, REST APIs, MySQL, JWT, WebSocket, React, and JavaScript. Strong foundation in Object-Oriented Programming, Data Structures & Algorithms, MVC Architecture, Authentication & Authorization, API design, database integration, and full-stack project deployment.

AREAS OF EXPERTISE:

- ✓ Backend Application Development
- ✓ RealTime Communication using WebSocket
- ✓ REST API Design & Development
- ✓ Java & Spring Boot Development
- ✓ Authentication & Authorization Systems
- ✓ MVC-Based Application Architecture
- ✓ Full-Stack Project Development
- ✓ Problem Solving with DSA
- ✓ Git-Based Project Version Control
- ✓ Deployment of Production-Style Applications

TECHNICAL SKILLS

Languages

- Java
- JavaScript
- SQL
- HTML5
- CSS3

Developer Tools / Platforms

- Git
- GitHub
- Maven
- VS Code
- Render
- Vercel

Backend Technologies

- Spring Boot
- Spring MVC
- Spring Security
- Hibernate / JPA
- RESTful API Development
- JWT Authentication
- WebSocket
- STOMP Messaging

Frontend Technologies

- React.js
- Bootstrap
- JavaScript DOM Manipulation
- Responsive UI Development

Databases

- MySQL
- H2 In-Memory Database

RELEVANT PROJECTS:

1) ChatX — Real-Time Messaging Platform (Live Project)

ChatX is a production-style real-time messaging platform designed to support secure communication between users through public chat and private chat workflows. The application focuses on real-time interaction, authenticated access, persistent message storage, and responsive communication features similar to modern chat platforms.

2) Portfolio Website (Live Project)

A personal portfolio website built to showcase professional profile, software projects, technical skills, resume, GitHub, and LeetCode presence. The website serves as a professional profile platform for recruiters and hiring managers.

3) BikeTrax

A vehicle management and tracking platform designed to handle bike records and maintenance-related workflow management.

EDUCATION: Really Great University

B.Tech in Computer Science & Engineering
Brainware University
CGPA: 7.5

Diploma in Engineering
Falakata Polytechnic
CGPA: 7.7
